

2019 BEACH COLLECTION

Don't let synthetic fabrics touch your skin
reward yourself with breath-taking
natural fabrics.

Combining the old-centuries tradition of weaving
with comfortable and modern sections, we have
prepared a pure and stylish collection.

Our hand woven fabrics made in the villages,
reflects the natural beauty of ancient times.

Its texture and posture is very natural.

A remarkable purity and relaxed modernity.

Feel the simplicity and value of the raw fabric
that nature offers us made with pure cotton and
traditional methods.

Şile Fabric is a crimped, plain weave fabric.
The crimped weave bears a natural pattern with
distinctively crinkled appearance.

Şile Fabric is washed in salty Black Sea and dried
on fine sand of Şile beaches. Therefore, real Şile Fabric
matures the hard work of Şile folk, and attains an
indigenous identity with Şile's sea and sand.
